

## R190.06 / R190.23

### Identifying the correct bearing

<b>CHEVROLET: Epica</b>	<b>OE reference</b> 96639585 96812619
-------------------------	---

### Before ordering, be sure of the bearing model

The CHEVROLET EPICA marketed between 2006 and 2009 is equipped with two different front wheel bearings without discriminating criteria:

- ref. OE 96639585: equivalent to **NTN-SNR R190.06**
- ref. OE 96812619: equivalent to **NTN-SNR R190.23**

### Although similar in appearance, these bearings are not interchangeable

Fitting the wrong bearing leads to an ABS fault.

A visual inspection is required to determine which bearing should be fitted to the vehicle: the bearing with the metal cover corresponds to kit R190.06.

**Ref. OE 96639585**  
**R190.06**

**Ref. OE 96812619**  
**R190.23**
