

EXPERT TIP

WATER PUMPS + DRIVE BELT SETS

COOLING | 15001

Warnings

- The cooling system is under pressure: Risk of injury when opening the lid!
- Incorrect coolant can cause damage to the cooling system and engine!

Risk of injury

Please wear hand and eye protection during maintenance and repair work.

Pay attention

- Determine coolant according to the specifications of the vehicle manufacturer.
- Do not mix coolants due to different compositions.
- When refilling coolant, pay attention to the changed relation of water and coolant.
- Overmixing can reduce heat dissipation and cause engine overheating.
- Check mixing ratio with suitable measuring instrument.
- Change and refill coolant only when the engine is cold.
